About Hidden Trails

Hidden Trails is owned and operated by nature enthusiasts who love horses and adventure activities. We have been involved with riding and other outdoor vacations for over 20 years.

With our partners Voyage du Cheval (France), Pegasus (Germany) as well as Equitour (Switzerland and France) we have collected the best riding destinations all over the world in some hidden places we would like to share with you.

These rides are about galloping on endless beaches, forging rivers, cantering through forests, trotting along age-old trails, gazing at beautiful vistas and encountering foreign cultures. But most of all, these trips are about getting away from the cycle of too much work and never enough free time.

Escape from the rituals, which long ago froze our nights and days into little more than routine and away from the worries of our new tense times. It is so satisfying when we take the plunge of adventure - it's unfortunate that we invent so many reasons to put aside living our dreams of adventure. It is sometimes a tangled web that we weave through life. Some of the threads reveal a work-a-day world of commitments, duties and obligations. Other threads are of a quiet fabric of hope, responsibility and refreshment.

On our adventures you see the real country, its back country and meet the locals. The love for horses has no boundaries but possesses a common language we all speak and understand. The majority of the overseas rides are from inn to inn, some from castle to castle and a few are camping rides.

You will experience new countries and their customs and make new friends. The Hidden Trails trips are the best you can find.

They have been tested by our staff or associates and received our stamp of approval. If you are considering a special riding vacation anywhere in the world, call us first and let our experienced consultants match the perfect trip with your dream.

We will listen to you and give you objective advice to help you choose the best destination and adventure.

Your vacation is the most precious time of the year and we are committed to making it the most memorable time of your life. Wherever you go, have a great time and bring back some peace of mind.

Thank you for your continued support.

Introduction

Lake District, Chile

The Crossing of the Andes - the greatest adventure on horseback in the Northern Patagonian Andes.

Riding amongst the snow capped volcanoes of the Chilean Andes, discover hidden mountain lakes, and meander your way through the Huerquehue National Park. For days you will feel like the only people on Earth! Then, crossing at a pass in Icalma, the mountains open into the vast valleys of the Argentinean pampas. The views on the descent from the peaks of the Andes are stunning. Look out through the rugged terrain at the sparkling lakes below, and ahead to the open pampas you will soon be riding through.

From smoking volcanoes and snow capped mountains, to deep blue mountain lakes, this ride is a once in a lifetime experience.

Get the best of two worlds and two great horse cultures. The steep mountains, and endless virgin forests on the Chilean side will give you a new appreciation for the low and sturdy Criollo Chilean horses. You will understand why the Criollo horses have become the prized horse of choice for the Chilean people. You also have the opportunity to observe the unique style of the Argentinean gaucho life, and the open space of the Argentinean pampas where they live and work. Descend along the Argentinean cliffs where we admire the majestic condor and other wildlife unique to the area. There is no better way to experience all of this than on a horseback trip.

The kitchen area has a gas stove and a refrigerator, and the cabin is heated with a wood-burning stove. A second cabin is located 20 meters away from Liucura River, providing the same facilities.

Guesthouse in Termas de Rio Blanco

Tonight, you sleep in the newly built guesthouse of this beautiful hot spring area. The guesthouse is located just a few minutes' walk from the natural hot springs. Rooms are basic but comfortable.

Lodge Nevados de Sollipulli at Sollipulli Volcano

This rustic mountain lodge offers cozy accommodations in small huts, just at the foot of the Sollipulli Volcano. The huts come with comfortable beds, heating and a private bathroom. Guests can also relax in the hot tub and sauna.

Lakeside cabin in Icalma

For your last night in Chile, you stay in double rooms in a single standing cabin on the lakeshore about 20 minutes from Icalma village. The cabin is equipped with a wood stove, a spacy dining room and a BBQ area. Bathrooms and washrooms are shared. The view over the lake is great from the cabin.

Hernan's Ranch

Each cabin has a wood burning stove and a small common area. There are bathrooms and washrooms in each cabin but the facilities are shared. The cabins are made of basalt stones and timber, giving them a lot of charm.

Camping

While camping, we provide you with "Robens" and "Salewa" dome tents (double or single tents available), which are solid, lightweight and with plenty of room for 2 persons. No need to bring your own mattress or sleeping bag. You will be given a Thermarest mattresses and a "Doite" (Chilean brand) sleeping bag with comfort zone from -7 to 0 degrees Celsius (19 - 32 degrees Fahrenheit).

Washroom facilities depend on the campsite from outhouses to hole in the ground. Most of the camping nights, guests will have the opportunity to swim in lakes or river and some camps offer shower facilities.

Room Occupancy

Single supplement is not mandatory if we cannot find another rider to share.

Meals

All meals are included in the trip. On the trail, we have abundant breakfasts and dinners at camps or cabins and a picnic at lunchtime.

We serve a mixture of traditional dishes. BBQs are an important part of the diet, especially in Argentina. You will experience and taste the difference between Chilean and Argentinean dishes and of course the Chilean and Argentinean wines.

Wine is included with dinner.

Dietary Restrictions

We can cater for special diet requirements with prior notice.

Riding

Riding Experience

You should have at least an intermediate level physical condition and some experience on horseback, but you do not have to be a highly experienced rider.

Pace

We ride up to 8 hours a day. In difficult passages, we may lead our horses walking on foot. Some canters and short gallops are possible in flatter parts, especially in Argentina portion, in the mountainous areas the pace is mostly at a walk or trot.

Horses

We share our farm with 20 horses, all of them Criollo Chilenos and crossbreeds. While some of them are registered, most are "ordinary" working horses. The Criollo Chileno are perfectly adapted to our landscape. Short with a low center of balance they are ideal for climbing the mountains of the Chilean Andes. They are extremely sure stepping and not nervous at all, no reaction to thunder, dogs or whirring cameras. They have a tendency to search for closeness to their riders.

Our horses roam and graze freely throughout two large paddocks (a 12-acre pasture on the riverside and a vast, 70-acre field in the mountains) and several smaller 2-acre paddocks beside the house. They range free as a herd all year round and have an open stable available to them where they can seek shelter during the winter. During the summer months, rich pasture and plentiful grass form the staple of their diets, though we supplement with corn and oats when they work. In winter, due to the slow growth of grass in these rough mountains, we feed them additional hay.

Tack

We are using all local Chilean saddles and gear. Most of this equipment is made by our local saddle maker from Villarrica.

We use typical Chilean "Avio" working saddles, designed for a long days on horseback. Those saddles are very comfortable for both rider and horse. The base is a wooden frame held together by pieces of metal in the front and back. The seat is formed by a broad band of rawhide tied in between the frame. It is covered by a wool-filled pad, followed by 2 - 6 layers of sheep fleece and a leather cover. All parts are strapped together by the "cincha" which holds the saddle on the horse's back.

The original Chilean stirrups are made of wood and are beautifully carved. Unfortunately, it is hard to fit your foot securely inside unless you're wearing the traditional pointed boots of the Chilean Huaso. Our saddler makes extra wide leather-covered "capacho" stirrups, so that wider shoes, like hiking boots, can easily fit. They offer good protection while riding through bushes and prevent branches and vines from tangling about your foot. We can also provide classical open stirrups for those who desire them.

You can find bridles and reins made of many different materials across the Chilean countryside, including leather, PVC, and ropes. We use the traditional hand-plaited reins, inox bits, and simple rawhide headstalls. Some of our horses are trained to be ridden without a bit, just slip on a halter or a rope and jump on. You can try out this method in the pasture if you like!

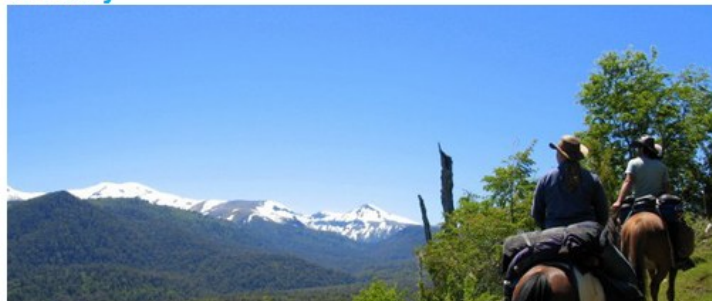

While trekking, all gear is packed in saddlebags we make ourselves (sewed on our 1936 Singer) out of sturdy leather. Tents and sleeping bags are stored inside waterproof bags to protect against rain and horse sweat, and then placed within canvas sacks and attached behind the saddle across the horse's rump.

Staff

Besides the long years team (Mathias, Alejandra, Katie, Luis and Aldo), we get additional guide and helpers throughout the summer months.
