About Hidden Trails

Hidden Trails is owned and operated by nature enthusiasts who love horses and adventure activities. We have been involved with riding and other outdoor vacations for over 20 years.
With our partners Voyage du Cheval (France), Pegasus (Germany) as well as Equitour (Switzerland and France) we have collected the best riding destinations all over the world in some hidden places we would like to share with you.

These rides are about galloping on endless beaches, forging rivers, cantering through forests, trotting along age-old trails, gazing at beautiful vistas and encountering foreign cultures. But most of all, these trips are about getting away from the cycle of too much work and never enough free time.

Escape from the rituals, which long ago froze our nights and days into little more than routine and away from the worries of our new tense times. It is so satisfying when we take the plunge of adventure - it's unfortunate that we invent so many reasons to put aside living our dreams of adventure. It is sometimes a tangled web that we weave through life. Some of the threads reveal a work-a-day world of commitments, duties and obligations. Other threads are of a quiet fabric of hope, responsibility and refreshment.

On our adventures you see the real country, its back country and meet the locals. The love for horses has no boundaries but possesses a common language we all speak and understand. The majority of the overseas rides are from inn to inn, some from castle to castle and a few are camping rides.
You will experience new countries and their customs and make new friends. The Hidden Trails trips are the best you can find.

They have been tested by our staff or associates and received our stamp of approval. If you are considering a special riding vacation anywhere in the world, call us first and let our experienced consultants match the perfect trip with your dream.
We will listen to you and give you objective advice to help you choose the best destination and adventure.

Your vacation is the most precious time of the year and we are committed to making it the most memorable time of your life. Wherever you go, have a great time and bring back some peace of mind.

Thank you for your continued support.

Introduction

Highlands Riding Tours, Ecuador
Ride through volcanoes, valleys, forest, and pre-Inca sites with comfortable overnights in traditional Highland Haciendas!

This ride brings us new experiences and a chance to contemplate the beauty of the mountains and valleys of the Ecuadorian Highlands everyday. As we ride, friendly chagras (cowboys of the Ecuadorian Andes) will guide our way and share with us their lifestyle, traditions, and impressive horsemanship skills. Our ride is the perfect combination for those looking for adventure, cultural immersion, and natural beauty.
One of the unique features of our ride is the variety of natural environments we will experience during the trip. The first part of the ride includes acclimatization at the Hacienda and the cloud forest. These subtropical Montagne Cloud forests used to cloak much of the steep western slopes of the Andes between 1,000 and 3,000 meters are now classified as threatened ecosystems. In the second part of the ride we will head towards a higher altitude and experience a more arid volcanic environment filled with canyons, rock peaks, and the Toachi River. We will climb mountain ridges and switch from the eastern to the western Andes Mountain Chain experiencing rolling hills of high altitude fauna typical of the Andes as we make our way to the spectacular Quilotoa Crater Lake.

Your horse will be your partner throughout this adventure and our team, who will make you feel part of the family, will guide you all the way. We will thoroughly explore and experience the grandeur of the Andes, marveling at the diversity of flora, fauna, and landscape.

At the cloud forest you will enter a completely different environment and see an exciting change in the surrounding vegetation; from a lush native tundra landscape of the high attitude to an impressive sub-tropical vegetation. The second part of our trip we will ride through the western Andean paramo, an Andean ecosystem that encompasses approximately 12,500 square kilometers. As we ride through the Andes Mountains, you will experience a diversity of geography and weather. Be prepared for a period of intense equatorial sun followed by chill Andes' wind—all within the space of a few hours. The locals say that the highlands experience all four seasons within the same day. Long after our return, our memories of this rugged but beautiful world will linger as a lifetime ride.

Riding

Horses
Our horses are very important to us. We have more than 35 riding-horses as well as about 30 mares and foals. Most have been bred here on the farm from mixed Criollo (native South American), English Thoroughbred and Arabian stock, resulting in a near perfect combination of toughness, agility, calm temperament and "mountain sense". Beginners and experienced riders alike have found them easy to ride, willing and good mannered.
We are happy to follow the Natural Horsemanship principles when training our horses.
Riders will get to know the horses well and start a relationship with them, as they will be part of the team for the rest of the ride. Riders will have the opportunity to try a variety of horses with different temperaments and traits. Together, we will choose which group of horses will accompany us. We will have several spare horses on the ride.

Tack
There is a range of tack including North American style, English style, McClellan cavalry, Chilean and traditional Ecuadorian "Chagra" style with its intricate leatherwork and saddle horn.

Host
Your host Gabriel comes from a family steeped in equestrian tradition. His grandfather bred racing horses close to Quito and his father, was a keen polo player.
Gabriel and Paty's three daughters are all keen riders, and the enthusiasm of the whole family is reflected in the quality of the horses at the farm. We are proud to share that Gabriel was recently nominated as MAESTRO GUIA ECUESTRE -- there are currently only 3 in the world with this title.

Test Ride
Before starting our program, riders receive instruction and ride under strict surveillance by the guides and helpers. We start by riding in a circle where riders must demonstrate their confidence and ability to adapt to the horse, saddle, and equipment. After this, they move up to a larger arena (70x70 meters/200x200 feet), where they will be observed and guided before going out. The rider has the option to switch horses, saddle, or equipment upon request.

Horse & Cattle Round ups

The "rodeo" in Ecuador means is the harvest of the year and literally means - "walk around the farm" - to collect the horses and cattle that are spread out all over the mountains in the wilds - isolated grazing on their own. On several Volcano Avenue trip dates we have the opportunity to take part in these local round ups of horses and cattle. It all takes place what is called environmental wasteland of the Ecuadorian Andes that is at an elevation of over 3500 meters - here is where the Chagras (cowboys) live. Over the centuries the Chagra horseman learned from his predecessors the Spanish and Natives to handle wild cattle using their horse and lasso that allow them to maintain their traditions such as "play the bull," get some "passes" and finally if he is "brave" - take it to the bullring in the town for the "festivities".

All this makes this collection of livestock in the Ecuadorian Andes an activity unique in the world, full of adrenaline and history. To reach these hidden corners we must travel the eastern mountains on two long riding days. We meet with the "Chagras " at the remote farm Chalupas and help them during their round ups. We will then return along the south side of the Cotopaxi Mountain -the highest active volcano in the world. On day seven we can all help rounding up a wild herd of horses and drive them back to the home ranch. Our ride will have long riding days and we will need to bring along an extra set of horses to switch every day.

Day 1 Arrival and transfer from airport to hotel and night in the ancient city of Quito

Day 2 Visit the city Walking around town squares and churches, transfer to the Hacienda La Alegria, lunch and rest Night at Hacienda La Alegria

Day 3 Horseback riding on the Hacienda La Alegria, appreciation of horses and saddles, horseback riding through the area near the ranch, lunch and rest for acclimatized to the altitude Night at Hacienda La Alegria

Day 4 We prepare our horses and went from Hacienda La Alegria eastward towards the Andes, we cross the valley and climb the volcano Machachi Rumiñahui until the shelter has all the comforts and after a hot shower and a delicious dinner by the fire we have to rest. Overnight in mountain refuge at 3750 meters.

Day 5 The challenge of the day will cover the northern base of Cotopaxi, heading east on a long journey that ends in the plains of the volcano Quilindaña, this valley was part of an old volcano and is where the Hacienda Chalupas our destiny.

Day 6 After a hearty breakfast we prepare for a long day that began with a meeting of chagras on horseback with their ponchos and warm fur coats, forming a semicircle, where the cowboy rodeo chief distributes instructions for the day's very similar a military strategy. Several groups of chagras will be carved up the mountain to cover the largest possible area. Gradually appear the first groups of cattle, some try to return to their hideouts in the mountains, is where the strategy and requires help from all the riders to a basis of cries and horse canter cut the livestock and are able to carry as many cattle into the corral. In the afternoon we reached the corrals where chagras with a unique "work" the cattle. This is to lasso and bring to the wood post to mark, de-worm and eventually released in the group it is concerned, this will be the sales and others the returning to the moor. At the end of the day chagras get together to sing music where the bull, horse and women are remembered in their songs for hours together with sugar cane liquor. Night at Hacienda Chalupas.

Day 7 Today we drive wild horses from the ranch and take them to the corral. The horses introduced by man remains a unique tool in these remote places. The aim is to cut the horses hooves and de-worming. The hoof trimming is important because in these vast prairies there is no proper wear hoofs which may harm the horse in its growth. The de-worming reduce the burden of parasites, decrease the risk of disease and how best to nurture in the pasture. We will have the opportunity to fish our trout for dinner. Night at Hacienda Chalupas

Day 8 It is time to begin the return, we must leave the mountain and head west on long trails of large wilderness areas planted with pine, continue along the sheltered valley, we serve a snack and hopefully see the giant volcano Cotopaxi from the south side, at the end of the afternoon we arrive at the Hacienda La Cienega (built in 1570, also former owners of farm Chalupas), now a luxury hotel that will allow us to recover the energies of the long journey. Hacienda La Cienega is located at an elevation of 2900 meters.

Day 9 Today our direction is north through the valley of Cotopaxi to the Valley of Machachi. The colossus will be on the east by what we will have completed around the Cotopaxi. Late in the afternoon we arrive in our Hacienda where we expect a wonderful meal and relaxing spa. Hacienda la Alegria

Day 10 A full relaxing day with the horses, the beautiful scenery and good food rounds out the exciting ride.

Day 11 Transfer to the airport. Departure
