## About Hidden Trails

Hidden Trails is owned and operated by nature enthusiasts who love horses and adventure activities. We have been involved with riding and other outdoor vacations for over 20 years.

With our partners Voyage du Cheval (France), Pegasus (Germany) as well as Equitour (Switzerland and France) we have collected the best riding destinations all over the world in some hidden places we would like to share with you.

These rides are about galloping on endless beaches, forging rivers, cantering through forests, trotting along age-old trails, gazing at beautiful vistas and encountering foreign cultures. But most of all, these trips are about getting away from the cycle of too much work and never enough free time.

Escape from the rituals, which long ago froze our nights and days into little more than routine and away from the worries of our new tense times. It is so satisfying when we take the plunge of adventure - it's unfortunate that we invent so many reasons to put aside living our dreams of adventure. It is sometimes a tangled web that we weave through life. Some of the threads reveal a work-a-day world of commitments, duties and obligations. Other threads are of a quiet fabric of hope, responsibility and refreshment.

On our adventures you see the real country, its back country and meet the locals. The love for horses has no boundaries but possesses a common language we all speak and understand. The majority of the overseas rides are from inn to inn, some from castle to castle and a few are camping rides.

You will experience new countries and their customs and make new friends. The Hidden Trails trips are the best you can find.

They have been tested by our staff or associates and received our stamp of approval. If you are considering a special riding vacation anywhere in the world, call us first and let our experienced consultants match the perfect trip with your dream.

We will listen to you and give you objective advice to help you choose the best destination and adventure.

Your vacation is the most precious time of the year and we are committed to making it the most memorable time of your life. Wherever you go, have a great time and bring back some peace of mind.

Thank you for your continued support.

## Introduction

Tuscany, Italy

On Historic Trails in Tuscany on the Tracks of the Etruscans: Who were the Etruscans?

Who were the Etruscans? The Etruscans were the early inhabitants of Italy, long before the Roman Empire existed. However, the Etruscan civilization is often overlooked despite its enormous influence on the region. Etruscan settlements were frequently built on the hillside - the steeper the hill, the better - and surrounded by thick fortress walls, well protected from intruders. Many of the Etruscans' early water systems later contributed to the iconic Roman aqueduct. While nobody really knows where the Etruscans originated - though many believe they came from Asia Minor - they were prominent in Italy by 800 BC. When exploring this region of Italy we discover remnants of their hilltop fortresses, old settlements and the imprint of their trading routes stretching from Naples to Venice. However, nowhere in Italy carries the Etruscan influence quite like Tuscany; in fact, Tuscany's name originates from the Italian Etrusci or Tusci, words used by the ancient Romans to describe the Etruscans.

Let us explore and relive the history of this mysterious people! We provide three different itineraries for riders to choose from, as the history and landscapes available here is truly impossible to fit into one week alone! Some of the wonderful places these trips take us include the Necropolis of Sovana (Poggio Pisca), the Ildebranda Tomb, the hermitage of Rioatonna Cicognina, the ancient hamlet of Fonte Vetriana, the Nature Reserve of the Pietraporciana, ancient pilgrim routes, the nature reserve of Pigelleto, the nature park of Maremma, where we get to ride with the local Butteri cowboys, and much much more!

## Riding

### Riding Experience

These trips have been designed for intermediate riders who are comfortable at all gaits and are able to ride through steep and challenging terrain. They should ride on a regular basis and be in good physical condition. The Etruscan Trail is suitable for intermediate riders and above. The Two Lakes Trail is suitable for intermediate riders and above. The Maremma Traditions Ride is suitable for strong intermediate and experienced riders only as you will be working with cattle and crossing some rivers.

### Terrain

On the Etruscan Trail and the Two Lakes Trail, we ride predominantly on mountain paths, ancient Etruscan roads cut deep into the tuff rock, country roads and dirt roads (maximum altitude is 860 meters, minimum 250 meters above sea level.). On the Maremma Traditions Ride, the trails consist in mainly mountain paths, country roads and dirt roads. At times, there are difficult fords and uneven trails.

### Pace

We go at a walk, trot and canter where possible. Each riding day lasts for about 5 - 6 hours split between the morning (longer ride) and the afternoon. On average, we ride between 25 and 40 km per day.

### Horses

We host more than 60 horses, who live in small groups, outdoor on 100 acres of pastureland, completely according to their natural needs of socialization and movement. All the horses are trained in Western riding and particularly suitable for trekking.

### Horse Training

The horse training is personally overseen by Fabio, with his the method called 'Natural Western'. The initial training consists of teaching the horses to trust humans, and subsequently to carry out all the necessary movements in the countryside: walk, trot, canter, gallop, back, side passes, gallop changes, transitions, jumping, and water crossing. The horses carry out much of their training in the countryside, learning while having fun and at the same time increasing their level of experience.

### Guides

An experienced guide rides with the group while an assistant takes the luggage to the overnight site and prepares the fencing for the horses. On the Maremma Traditions, during the 4 days with the Butteri, our guide and a buttero will lead the group. Your guide can provide basic medication and will take along a first-aid kit on the trek. Any health conditions that require special medication should be brought to the attention of the guide before departure on the trek. Allergy sufferers should bring their own medicines, as those who suffer allergies from common medications.
