About Hidden Trails

Hidden Trails is owned and operated by nature enthusiasts who love horses and adventure activities. We have been involved with riding and other outdoor vacations for over 20 years.

With our partners Voyage du Cheval (France), Pegasus (Germany) as well as Equitour (Switzerland and France) we have collected the best riding destinations all over the world in some hidden places we would like to share with you.

These rides are about galloping on endless beaches, forging rivers, cantering through forests, trotting along age-old trails, gazing at beautiful vistas and encountering foreign cultures. But most of all, these trips are about getting away from the cycle of too much work and never enough free time.

Escape from the rituals, which long ago froze our nights and days into little more than routine and away from the worries of our new tense times. It is so satisfying when we take the plunge of adventure - it's unfortunate that we invent so many reasons to put aside living our dreams of adventure. It is sometimes a tangled web that we weave through life. Some of the threads reveal a work-a-day world of commitments, duties and obligations. Other threads are of a quiet fabric of hope, responsibility and refreshment.

On our adventures you see the real country, its back country and meet the locals. The love for horses has no boundaries but possesses a common language we all speak and understand. The majority of the overseas rides are from inn to inn, some from castle to castle and a few are camping rides.

You will experience new countries and their customs and make new friends. The Hidden Trails trips are the best you can find.

They have been tested by our staff or associates and received our stamp of approval. If you are considering a special riding vacation anywhere in the world, call us first and let our experienced consultants match the perfect trip with your dream.

We will listen to you and give you objective advice to help you choose the best destination and adventure.

Your vacation is the most precious time of the year and we are committed to making it the most memorable time of your life. Wherever you go, have a great time and bring back some peace of mind.

Thank you for your continued support.

Introduction

Cappadocia, Turkey

This progressive riding trail, with nights spent in guesthouses, is an invitation to discover the immense natural, historical and cultural wealth of Cappadocia's unique landscape. A listed UNESCO World Heritage site, the Cappadocia regions is the result of incredible volcanic eruptions and ancient human activity. In personal riding groups of no more than 8 people, you will spend 5 - 6 hours per day exploring on horseback through a land rich with wonder. Beginning from the ranch located between Ortahisar and Ürgüp, the itinerary will take you on a 120 km tour around 'geological' Cappadocia, in 6 riding days. From the peasants' Cappadocia of the South to the most beautiful valleys of the North, a succession of fantastic rock formations, lush canyons, high plateaus, steppe-like landscapes, vineyards and orchards, compose a surprisingly varied route. The villages you will be introduced to will reflect the Anatolian way of life and the frescoed churches and many troglodytic treasures will testify to the stunning historical past of the area. You will experience the legendary Turkish hospitality in the typical Anatolian guesthouses that we have selected for you to stay in along the way. You will visit the cave villages, a renovated caravanserai and ancient frescoed churches. Come discover the beauty of the rural way of life found here, where the oldest traditions still live on.

It is now possible to include a hot-air balloon flight over Cappadocia's surreal landscape during the week. Flights take place on Thursday or Friday morning at sunrise.

Accommodation

Accommodations

These trails are all progressive rides where nights are spent at various locations.

Description

The traditional habitat of Cappadocia is mainly troglodyte: rooms are carved in the rock. Most of the hotels are beautifully restored old houses and offer cave rooms. Most people enjoy this amazing experience. But some guests have complained about the lack of windows and the rough (unfinished) walls in their bedrooms. Please let us know if you would have an issue with this type of accommodation.

The guesthouses are located in some of Cappadocia's prettiest villages (Urgup, Ayvali & Uchisar). Most guesthouses offer internet access and a laundry service.

All nights are in double/twin room with ensuite toilets and shower.

Room Occupancy

Single room accommodations are possible depending on availability for some nights, depending on what program you choose. A single supplement fee applies for those nights if you are not willing to room with another rider.

If we are unable to find another rider to share the room with you, a single supplement fee applies.

Meals

All meals are included for this trip.

A continental and Turkish breakfast option is available at the accommodations.

A delicious picnic lunch featuring a local specialty is served while on the trail. However, on most days we can ride up to a local restaurant for lunch.

When staying in a guesthouse, dinner vary everyday.

While camping, dinner is a traditional dish cooked on the wood fire, along with salad and fruits. Dinners are taken the Turkish way, on the floor, sitting on a carpet around a large round tray set in the communal tent or outside by the campfire. Dinner usually includes a starter, one or two main courses and dessert.

Tea, coffee and mineral water are included; wine, beer and soft drinks are available as an option, for an extra cost.

Dietary Restrictions

Vegetarian options are available upon request.

Riding

This program includes 6 riding days with about 5 to 6 hours in the saddle each day except on Wednesday (3.5 hours). On average, we will cover 35 kilometers each day, on varied terrain. This route features a lot of technical canters with some long stretch (about 15 minutes). Some canters are on light down hills and rough terrain.

Physical Condition and Riding Ability

Riders must be able to tack up and mount their horse unassisted, and be confident on leading their horse on rough terrain and riding during group canters. Our horses are forward going and you must be able to stay in control during group canters. You must be able to stay in the saddle firmly during group canters, and be able to tack up your horse yourself. Before coming to Turkey, go for a few rides and get adequately fit in order to avoid muscular pain or irritations during the trail.

Participants must be fit enough to ride on long and technical canters and to walk uphill on difficult terrain. The circuit includes a few difficult ways where riders will be asked to dismount and lead their horse, sometimes up steep paths.

For the comfort of the group, riders who do not have an adequate riding level, body weight or physical condition may be refused access to the riding trails, and be offered a walking or minibus tours of Cappadocia instead, at an extra cost. So please, be aware of your capabilities! People unsure of their physical condition and riding level should opt for the Comfort Ride or Discovery Trail option.

You need to be fit enough to mount and dismount your horse, walk on long distance and be comfortable with water (river crossing).

A regular practice of a sport is highly recommended.

Tack

The riding equipment includes standard bits and pelhams as well as McClellan light trailing saddles and saddles made by ourselves. These are fitted with two saddlebags for you to carry the picnic and personal belongings for the day.

Horses

Our stable is composed of forward-going Arab, and cross-Arab horses who will surprise you with their robustness and their agility. They are 1,50 m tall on average - the ideal size for trailing on tortuous paths! All our horses are responsive, well balanced and respectful of the rider and they are extremely sure-footed.

We have put a lot of time and investment into the quality of our horses. Since 2015 more than half of our cavalry has been renewed with pure Arabian endurance horses. Most of our horses have qualified in national endurance races.

We have invested in a horse walker and in an arena in order to continue to offer riders well trained horses.

Our horses live together as a herd and all spend their days outside grazing in our fields when not on the trail.

Horses are assigned according to riding levels and riders' preferences, but the size and the weight of the rider are also important criteria.

Our team will groom and prepare the horses, so no participation is required by the rider.

Weight Restriction

Riders cannot be over 85kg. We will weigh riders on arrival and those over will not be able to participate in the riding program.

Guide

We will provide 1 guide for every 4 riders.

Travel Insurance

You must have appropriate travel insurance to take part in our trails. Make sure your policy covers horse-riding activities abroad. Your insurance details will be requested on arrival.

A long canter leads us through vineyards and orchards and over rolling hills of white tuff to reach the fairy chimneys of Gomed valley. Then more riding awaits you in the narrow corridors and arches of the canyon of Gumuslu. You ride uphill to reach a restaurant for lunch: "Babayan evi". Very good and healthy local food. From this picturesque village, you start ascending the 'twin hills' of Cappadocia to reach a panoramic viewpoint encompassing northern Cappadocia and the towering rock fortress of Uchisar. A cave café located in an ancient monastery welcomes you for lunch. In the afternoon, you keep exploring the Red and Rose Valleys, and then ride out into the fields, surrounded by the rocky hills of north Cappadocia. The winding paths of the Shepherd's valley take you back with a long canter to your guesthouse in Uchisar, in time to admire north Cappadocia in the sunset light.

You canter on the crest overlooking Red valley on one side and Devrent valley on the other, with its strangely shaped fairy chimneys on the other side. You enjoy more long canters through the maze of woody, sandy paths of the valley of Urgüp before reaching the valley of Pancarlik and its multicolored rock formations, gardens and orchards.
